SUMMARY

Software Engineer specializing in frontend and cross-platform mobile development with expertise in React, React Native, and TypeScript. Focused on solving problems and building scalable applications both from scratch and within existing codebases.

Experienced in collaborating with cross-functional teams to build reliable and maintainable software. Actively leverages AI-assisted development tools to accelerate delivery, improve code quality, and enhance productivity.

TECHNICAL SKILLS

React, React Native, Expo, TypeScript,
JavaScript, Zustand, React Hook Form,
Reanimated, Three.js, Recharts, Shadcn/UI,
HTML, CSS, Git

PROFESSIONAL EXPERIENCE

Front End Developer, Flickhunt, June 2025-Current

Philadelphia, Pennsylvania

- Developed and launched cross-platform mobile application for iOS and Android using React Native and Expo.
- Optimized client-side logic for personalized content and filtering, enhancing recommendation relevance.
- Refined animations and interactions with Reanimated to ensure native-like user experience.
- Led development and maintenance of admin panel for content and user management, streamlining internal operations.
- Collaborated with design and backend teams to convert product concepts into production-ready features.

Front End Developer, Chyper Motion, February 2024-April 2025

Cherry Hill, New Jersey

- Created frontend application from scratch using React and TypeScript.
- Designed scalable design system to enhance development speed and ensure UI consistency.
- Developed interactive dashboards and data visualizations with Recharts to simplify complex datasets.
- Integrated 3D visualizations using Three.js to boost data exploration and user engagement.
- Collaborated with backend and design teams to deliver a cohesive product experience.

EDUCATION

High School Diploma

Middle Bucks Institute of Technology, Warrington, PA May 2026
